

Rolling Walkers

NOVA has a new Superstar!

Introducing the

STAR

What makes NOVA Rolling Walkers so unique?

1. Our patented locking hand brakes

NOVA's patented hand brakes are designed for maximum comfort and control. They allow users to easily control the speed by pulling up and engage the parking brake by pushing down. Users with weak or small hands need not worry - our hand brakes are the **best and easiest to use**. Most come with reflectors for safety and good looks!

2. NOVA Quality

At NOVA, we stand by the quality of our products. That's why each NOVA rolling walker comes with a **lifetime warranty** on the frame.

3. Excellence in Service

When you purchase a NOVA Rolling Walker, you are also receiving the **best in customer service**. Our NOVA hand brakes come with a **5 year warranty**, and our dedicated customer service representatives are standing by to answer any questions you may have.

Tips for Choosing Your NOVA Rolling Walker

Walkers are NOT one size fits all

To determine the correct seat height - sit on the seat with your back to the backrest. Your feet should both be flat on the ground with your thighs resting comfortably on the seat. Make sure your weight is below the listed weight capacity and you can sit comfortably between the handles.

Choose the features and options that go with your lifestyle

With your NOVA Walker you will now be on the go! - so choose the features that compliment and support your independence. How about storage for your personal belongings? What size wheels are best for your walking terrain? Be sure to consider great options like a cup holder, flashlight, or mobility clutch!

Get your Style ON

Choose the walker color and designer mobility bags to compliment your personal style. You can choose for YOU and walk with pride and style.

Before you take your NOVA for a test drive - be sure to:

- Make sure the backrest is attached.
- Adjust the handles to your height. Adjust the hand grips to your wrist for a slight 30 degree bend at the elbow.
- Read and understand all user warnings.
- Practice engaging the hand brakes and locking the hand brakes prior to use.

The **Cruiser Classic** allows you to cruise along with a **weight activated** brake system. This walker has 5" front and rear wheels and **DOES NOT** have locking hand brakes for those unable to use them. The **Cruiser II** is ideal for beginning **gait training** with 5 inch front wheels and rear rubber tips to prevent the walker from rolling away.
