

GEMINO

GEMINO 20 • GEMINO 20 M • GEMINO 20 S

Rollator with unique functionality and flexibility

GEMINO 20

GEMINO 20 M

GEMINO 20 S

Gemino has a wide range of accessories. Together with the adaptation options in the rollators themselves, these accessories make it possible to tailor Gemino to match user requirements exactly.

Gemino 20 is available in three different sizes, so you can always be sure of finding a Gemino model that suits you and your needs.

Safety, support and stability

The unique and very stable design ensures that you can walk securely in all settings. When you need a rest, Gemino has a seat with a nice, wide surface.

Comfortable, correct position for walking

It is easy to adjust Gemino to the correct height. The brake and pushing handles have been carefully designed to be comfortable and easy to use.

Safe and easy to use

High-quality integrated reflectors make Gemino clearly visible to road users.

The unique brake block design ensures that the brakes stop the wheels very effectively. The design of the tipping bar makes it very easy to negotiate obstacles such as curbs and door sills. A unique side deflector makes it easier to navigate doorways, table legs and other furniture, without the danger of the back wheels getting caught.

Gemino – design

The items with which we surround ourselves help define how we are perceived. The design of Gemino appeals to both young and old alike.

The rollator folds up in one easy step and locks automatically into the folded position
